Nature Of Opinion

Docket Number: L-00000YY-15-0318-00171

Docket Position: Against

Received 11 e-mails in opposition all with similar wording/thoughts as the following:

We are residents of the San Pedro River Valley and strongly oppose the issuance of a Certificate of Environmental Compatibility for the SunZia Southwest Transmission Project as the proposed two new 500kV transmission lines will seriously impact the fragile environment of this unique ecosystem. The impact will be both visually disturbing for people seeking recreation in the natural beauty of this area, as well as physically compromising the habitat of many rare and protected species of animals and plants. Moreover, Arizona is very much capable of producing its own energy from a multitude of sources -- including, for example, renewables like solar power from the roof or our own home --, and does not need to import it from SunZia. These transmission lines are not needed and highly destructive for the precious environment of the San Pedro River Valley, and should NOT be permitted.

Dr. Dorothee & William H. Kieckhefer, Robert Evans, Anna Lands, Jim McPherson, Birgit De Gregorio, Shannon Bishop, Alex Binford-Walsh, Kerry C Kelso, Stephen De Gregoria, Jacqueline Dale, Susan Newman.
